Objective

Aspiring Junior Developer with a strong foundation in software and web development. Passionate about problem-solving, clean code, and user-friendly design. Seeking an opportunity to contribute to innovative projects in a collaborative team environment while continuously growing technical expertise.

Education

A.A.S. in Information Technology – Software & Web Development (*Expected May 2025*)

Asheville-Buncombe Technical Community College, Asheville, NC

GPA: 4.0

Relevant Coursework: Web Development, Database Management, Software Engineering, Full-Stack Development

Technical Skills

- Languages & Frameworks: JavaScript, Python, PHP, SQL (MySQL)
- Front-End: HTML, CSS, LESS, Bootstrap 5
- Back-End: PHP, MySQL, API Integration, Database Management
- Tools & Software: Git/GitHub, Figma, Photoshop, Microsoft Office
- Concepts: Responsive Design, Debugging, Agile Development

Experience

Owner/Operator – Clipper & Comb Barbershop, Arden, NC (*Apr 2018 – Present*)

- Managed business operations, scheduling, and customer relationships to ensure long-term growth.
- Led construction and relocation efforts, overseeing logistics and strict deadlines.
- Implemented data-driven strategies to optimize efficiency and client retention.

Operator – The Handlebar Barbershop, Thousand Oaks, CA (Aug 2014 – Jan 2018)

- Maintained client records and analyzed data to improve service efficiency.
- Provided administrative and operational support for daily business functions.

Projects

WNC Farmers Market Website (In Progress)

- Designed and developed a multi-user platform for vendors and customers using PHP, MySQL, JavaScript, and CSS, enabling seamless interaction and data management.
- Developed an interactive search and filtering system using JavaScript and MySQL queries, allowing users to efficiently locate vendors and products based on market location, vendor name, and available goods.
- Implemented a dynamic navigation system that adapts based on user roles and database content, enhancing accessibility and user experience.
- Ensured full mobile responsiveness using CSS, optimizing usability across different devices and screen sizes.

Etch-A-Sketch Web App (Personal Project)

- Developed an interactive drawing application using JavaScript, HTML, and CSS, allowing users to create digital sketches with smooth and responsive interactions.
- Implemented Rainbow Mode to dynamically change stroke colors, enhancing user engagement and creativity.
